

DAILY START

EASY & SMART

The **Daily Start** is the **last newcomer** to join the Daily Minibus family. This version completes the Minibus range by providing an **entry-level vehicle, simple and very functional** with an **excellent value for money**. It ensures a **strong base** and a **proven quality** inherited from the Daily DNA for **durable work**.

This model is available in **two different diesel motorizations** (150 and 180 hp) and features **various seats configuration** (up to 22 passengers with possibility of wheelchair access).

The **Daily Start** is fitted with a **manual side sliding door** in standard configuration. A retractable step at the entrance makes an easy access. To keep this Daily **even more versatile**, standard features can be enhanced with several options such as **the central air conditioning**.

Easy and smart, the **New Daily Start** is perfectly adapted to fill a **wide range of missions**: from airport parking services to shared taxis.
